

HEARTS ACADEMY TRUST

Behaviour and Relationships Policy

Date: September 2023 - following guidance from the Local Authority

Review Date: September 2024

HEARTS Academy Trust is committed to providing a happy, caring and safe learning environment for all within a values led context, where everyone feels valued and grows in confidence and independence.

We promote **HAPPINESS** through a creative, exciting and practical curriculum, which generates a love of, and interest in, learning and a resilience and hope which supports us through challenging times.

Great value is placed on pupils' self **ESTEEM** which is developed through a positive and motivated attitude to learning, a healthy lifestyle, good social skills, self-discipline and a positive self-image.

We promote the highest standards of **ACHIEVEMENT** in all areas of the curriculum and help all pupils to fulfil their potential regardless of gender, race or ability.

We foster **RESPECT and RESPONSIBILITY** for all by establishing good relations between the school, home and community. Pupils are taught respect for themselves, others and the environment. They are also taught to take full responsibility for their own choices and responsibility for themselves and their community.

We encourage **TRUTH** and honesty in all aspects of school life – relationships, work and the curriculum and learn to trust and accept others' individuality and uniqueness.

We develop **SPIRITUALITY and SERVICE** so that calm, quiet, reflective times which support deep thought are part of school life and beauty is appreciated. We promote a service culture that reflects our duty to support and show compassion to all members of the community and not just ourselves.

Children at the HEART

Provision Values

At The Atrium, we believe in the importance of relationships, ensuring children and young people feel valued, safe and secure, providing a sense of connection with a member of staff and a belonging to our community.

Our provision reflects the values of the Essex Approach to understanding behaviour and supporting emotional wellbeing known as Trauma Perceptive Practice (TPP)

- Compassion and Kindness
- Hope
- Connection and Belonging

We endeavour to make sure that at our provision, these values run through all the policies and practice.

These Values are inline with the Thrive approach (a trauma informed and systematic approach to identifying developmental need).

Our values, known as “HEARTS values”, and our mission statement underpin the behaviour of all (adults and children alike) in the school community

Provision Ethos

It is a core aim of The Atrium that every member of the community feels valued and respected, and that each person is treated fairly and well. We are a caring community whose values are built on mutual trust and respect for all. This Relationships and Behaviour policy is therefore designed to support the way in which all members of the provision can live and work together in a caring way. It aims to promote an environment where everyone feels happy, safe and secure, and able to learn.

We value each individual child/young person and work with families, the wider community and beyond to offer diverse experiences and support. We develop children and young people to be confident, life-long learners and compassionate, respectful members of their community and the world. We always prioritise the safety of our children and young people and staff. Everything we do is underpinned by our safeguarding procedures.

We recognise that children and young people have a ‘window of tolerance’ within which they feel safe, secure and regulated. When asked to do something outside of this window they can experience stress and react accordingly. Our aim is to help our children and young people to widen their window of tolerance through teaching them about the stress-response in the brain and how they can learn to self-regulate through co-regulation with adults.

A Relational Behaviour Model

At The Atrium, we adopt and use the relational behaviour model which is the approach from TPP. The key principles are as follows:

- Behaviour is something to interpret.
- Children and young people are prone to make mistakes and highly responsive to the environment and context.
- Behaviour management is predominantly through relationships.
- Children/young people who don’t manage should be understood and included.
- Boundaries and limits are to keep everyone safe and to meet everyone’s needs.
- Rule should be developed together and adapted where needed.
- Consequences are only used within a process of restore and repair.
- ‘Inappropriate behaviour’ is a sign of unmet need, stress (difficulty in coping), lack of understanding and skills.
- The causes of the difficulties are mostly in the environment and within the context of relationships.
- The solutions lie in understanding what the behaviour tells us about the child/young person and their need.

Practice and policy effectiveness is measured by wellbeing and the capacity to adapt and make reasonable adjustments to meet the needs.

General Expectations

We have high expectations for our children and young people, while recognising some children have specific needs. The following expectations cover all times of the intervention. This means we:

- encourage a positive attitude to learning within a safe, happy environment
- promote high expectations and enable children/young people to become independent responsible learners
- encourage a sense of respect for our community and our environment
- believe that clear, consistent routines and systems are essential to support children and young people's development and ensure the health, safety and wellbeing of everyone in our community.
- Ensure that all staff have the subject Knowledge to be prepared to capitalise on every learning opportunity when pupils are able to cognitively engage.

It is everyone's responsibility to remind and support children and young people where these expectations are not met. Equally it is important to comment positively when they are. Staff model expected behaviours, attitudes and habits.

Any behaviour that falls below the expectations of our provision (e.g., disruption to learning, unkind or inconsiderate actions), will require some level of intervention. Remembering that every interaction is an intervention, it is important to remember that the strongest approach to support a child/young person is through their relationship with the adult. At all points we try to ensure we keep a strong connection with the child/young person having difficulties. We use positive recognition, as appropriate, to ensure the children or young people know we are still there, and we recognise their effort and any changes they have made.

At the Atrium, safety and containment is provided by having a predictable and consistent daily routine which is set out in our weekly planning. Adults responses to behaviour are also consistent and predictable as outlined in pupil's Adult Response Plans.

What we do to teach and promote positive management of behaviour.

We believe that all behaviour is communication, and it is our job as adults to understand what that behaviour is telling us. We need to become 'stress detectives' and ascertain both why, and why now? Finding the cause of the behaviour will help us to work alongside the child or young person in order to help them to regulate themselves both in the short term and in the longer term through developing strategies to aid their resilience.

Recognition and rewards

Intrinsic Recognition

Ultimately, we need to help children think and feel good things about themselves. Throughout the day, staff will recognise when the children behave in ways that are considered positive, helpful or expected. This sense of internal satisfaction promotes self-confidence and internal motivation.

Pupil's work is shared between the referring school and the Atrium. When a pupil completes work at school, it is photocopied and shared on The Atrium 'WOW' wall. Conversely, pupils work at the Atrium is shared and celebrated with their class teachers, behaviour mentors and parents.

Extrinsic Recognition

There are occasions when a child will need some help to remain motivated and help them stay focussed; especially when they find it hard to do this. When appropriate, as part of the individual support plan, the child may be rewarded; for example, with some free choice time at the end of the day. In general, extrinsic rewards can work well as a motivator for pupils with ASD or ADHD.

We plan with the referring school to make sure achievements and milestones are celebrated between settings. For example, if a pupil is unable to access sports day in their home school we provide one at the Atrium and reward with medals and certificates. Pupils are awarded Atrium certificates and stickers for achievements improved attendance.

View behaviour as a learning process

At The Atrium, we accept and understand that learning how to regulate our behaviour is a learning process. At times children and young people will push limits, boundaries, and societal norms as part of their normal development. They may also react in different ways to stress, boredom, lack of understanding, over-excitement, and disappointment. Using the relational model, we offer support, help and guidance to the child or young person along with co-regulation so they can develop strategies to regulate themselves and develop resilience for the future. It is our role, as fully developed adults, to help guide children and young people, to make helpful and positive choices when they can by relating to them and helping them to restore and repair as required. We know that this is the best way to respond to our child/young person's behaviour and maintain our relationship with them. The approach we strive for is based on the premise of 'connection before correction'.

Our general responses to incidents

We believe that all behaviour is communication and in the power of using restorative approaches. Such processes do not shy away from using consequences where logical, appropriate and proportionate. They also focus on the need to take responsibility for finding a constructive way forward for all concerned. This might mean a sincere apology followed by an act of kindness. Such approaches encourage the to reflect and consider not only the consequences of their actions on themselves, but also the impact of their actions on others. We also support them in developing strategies to help the child or young person to regulate themselves to avoid the situation happening again in the future.

In using this process at our provision, we use four questions:

- What happened?
- What were you feeling or thinking at the time?
- Who has been affected?
- What can we do to make things right? (What should happen next?)

As part of the restore and repair process, they have the chance to show the person that has been affected by their action that they are sorry. This can be in the form of verbal, written, picture, or an action.

Where possible, a logical consequence (natural reparation) is used e.g., clean graffiti off the door, clean up the mess, pay for replacement of item. Where this is not possible a close alternative will be used.

At The Atrium, the mentors work with the child using psychoeducation so that they understand how their brain works and reacts to stress responses. By doing so, we provide them with the opportunity to recognise when they are becoming dysregulated and assist them (using co-regulation) in developing self-regulation strategies for the future. By developing new strategies, this ensures that they have learnt from an incident so that they can be more successful next time. The impact of our approach is evident in the relationships forged throughout the provision and the reduced number of incidents recorded at level 4/5 on Adult response plans.

Using logical consequences

The use of consequences

Consequences can be a useful response to behaviours, remembering that some behaviours result in positive consequences. When responding to unwanted behaviour, the consequences we use in our provision always look at the incident with the knowledge of the stress response (and how the brain reacts), the relational model and with the aim to repair and restore through relationships.

It is helpful to view consequences as protective and/or educational. Best practice suggests that all protective consequences should run alongside educational consequences, as it is unlikely that long-term change will occur without this.

Protective consequences: these are required to protect the rights of others and keep a child or young person safe.

At our provision this may include:

- co-regulation to help develop self-regulation strategies
- increased staff ratio
- change of school day/timetable
- arrangements for access to outside space
- child or young person escorted in stressful situations

- differentiated teaching space. Some rooms remain out of bounds until relationships have been repaired and others feel safe.

Pupils are taught that the most important rule at the Atrium is that everyone **is** safe and **feels** safe.

Educational consequences: at our provision we use these to teach, encourage, support and motivate the child or young person to behave differently next time through better understanding. These are logical, appropriate and proportionate. Examples include:

- ensuring the child or young person completes the task they have disrupted
- rehearsing/modelling situations through intentional teaching of prosocial behaviour
- ensure the child or young person assists with repairs where they have caused damage (when possible and practical)
- intentionally provide educational opportunities for the child or young person to learn about the impact of certain actions and behaviours
- providing the child or young person with an opportunity to 'put things right' through a process of reflecting, repairing and restoring relationships.
- Rehearsing restorative conversations with parents at home or a trusted adult before meetings take place. A restorative handout is sent home with questions to talk through.

Suspensions and exclusions

At The Atrium, we seek to reduce the number of incidents which could lead to suspensions or exclusions by promoting a positive atmosphere of mutual respect, having clear boundaries and managing pupils stress through adult response plans.

However, there are some instances when these logical consequences might be considered if there is a risk of serious harm that cannot be immediately supported or resolved. This includes:

- causing significant (or repeated) physical harm to another child or adult
- persistent and repetitive harmful and dangerous behaviour during the school day which has an impact on other students' learning
- extreme harmful/dangerous behaviour which is deemed outside the remit of the normal range of the usual logical consequences.

Suspensions or exclusions from The Atrium can be authorised in partnership and agreement with the Head teacher of the referring school. However, The Atrium always reserves the right to exclude.

Please see Partnership agreement form.

Head of the Atrium to contact referring school and follow the procedure as outlined in the Host school (Briscoe Primary School) Behaviour, Anti bullying, suspension and exclusion policy.

Harm from dysregulated (stressed) behaviour

Our provision always prioritises the safety and welfare of all staff and children/young people, recognising that everyone is entitled to a safe and supportive environment. Any incident (verbal or physical) which compromises safety can be perceived as harmful. Our staff understand through training that this behaviour is not necessarily deliberate, rather it is often due to a stress response.

Supporting those who have been harmed

Our staff and children and young people receive the individual support they need in response to any incident where the behaviour has compromised the wellbeing of someone else, causing harm. Occasionally there may be times, despite all reasonably practicable measures being taken, when prevention is unsuccessful, and someone is harmed. At these times our provision ensures that this person (adult or child/young person) is fully supported.

We always consider the following:

- are they physically safe and protected?
- do they need immediate first aid & medical treatment?
- is there a need for immediate police involvement?

- ensure they have the opportunity to talk about the incident either with a trusted person or other independent service
- give reassurance to reduce feelings of guilt and/or anxiety.

Risk Assessment Process

In our provision we use a risk assessment process as the starting point for preventing harm for all pupils. We identify what is likely to cause stress to them, using all the information known about them. Once all this information is collated, the strategies are incorporated into the pupil's Adult Response Plan. When harmful behaviours present at levels 4 and 5, non-restrictive and restrictive holds may be used by adults trained through PRICE. A summary risk assessment for any holds are kept alongside pupil Adult Response Plans.

In some circumstances, pupils may need additional risk assessments for example, a child who is known to make allegations may require 2:1 ratios. In such instances the Atrium is supported by the trust safeguarding lead who can advise before assessments are signed off.

An example of information to be included in the risk assessment can be found in Appendix 1.

A risk assessment for the environment is reviewed annually and kept on Smartlog.

Physical intervention (control and restraint) - the use of reasonable force

At our provision we make sure we are aware of our duties of care and follow the law. The law states that it is permissible to use reasonable force to prevent children and young people committing an offence, injuring themselves or others, or damaging property, and to maintain good order and discipline in the classroom.

The use of physical intervention techniques is only one aspect of co-regulation and is usually the last resort when it is deemed absolutely necessary. It may resolve a short-term situation, but the long-term aim must be to help the child or young person to be able to self-regulate during times of stress. For more information, please refer to our Safe touch and Physical Intervention Policy on HEARTS Academy Trust website.

Screening and searching children and young people

At our provision we are all aware that there are legal provisions which enable staff to confiscate items from children and young people:

DfE Advice for Schools July 2022 - [Searching, Screening and Confiscation \(publishing.service.gov.uk\)](https://www.publishing.service.gov.uk/government/uploads/system/uploads/attachment_data/file/106422/20220707-searching-screening-and-confiscation.pdf)

From this guidance our staff understand that they may confiscate items that are of high value, deemed inappropriate and are against the school policies or are causing concern. Where a specific policy about the item does not exist within our host school, the adults will use their discretion about whether the item is returned to the child/young person or to their parent/carer. Items returned to them will usually be returned no later than the end of that school day. If the item needs collecting by a parent/carer, the adults should ensure that they are made aware that an item has been confiscated – either through the child/young person or via text/phone call. Where the item is of high value or deemed inappropriate, contact will be made directly with the parent/carer.

Staff do have the power to search without consent for “prohibited items” including:

- knives and weapons
- alcohol
- illegal drugs
- stolen items
- tobacco and cigarette papers
- fireworks
- pornographic images

- any article that has been or is likely to be used to commit an offence, cause personal injury or damage to property; and any item banned by the school rules which has been identified in the rules as an item which may be searched for.

How we support children and young people with additional Social, Emotional and Mental Health needs

At our provision, we acknowledge that the majority of children and young people who attend will have additional needs. We recognise that children and young people may experience a range of social, emotional, mental health needs which present themselves in many ways. These may include children and young people displaying challenging, disruptive or stress-related behaviours. These behaviours may also reflect underlying social interaction difficulties, sensory or medical needs or clinically diagnosed needs such as attention deficit disorder, attention deficit hyperactive disorder, foetal alcohol disorder or attachment difficulties.

We will always endeavour to understand behaviour, support emotional wellbeing and make reasonable adjustments to our provision to support progress and engagement using a variety of strategies developed with key adults within the child/young person's life (staff, family, professionals) in order to best meet their needs. In Essex, this is done in the context of One Planning. We also recognise the needs of children and young people with Special Educational Needs and Disabilities (SEND) and follow the policies and procedures associated with supporting these children and young people, including but not limited to, the SEND code of practice, Equal Opportunities and Disability Act.

We understand that the communicating behaviour(s) most likely comes from a place of stress which may come from anxiety, fear or as a result of a barrier to learning. We have a duty to strive to help children and young people to return to a place of regulation, within their 'Window of Tolerance', as only then will the child or young person be in a place to learn, connect and thrive.

Our Principles - the things we will do as adults

All staff

- Seek to understand the communication behind the behaviour
- Keep the relationship at the forefront when seeking to restore and repair (connection before correction)
- Model compassion and kindness, provide hope and support, connection and belonging
- Understand that any event in a child or young person's life can impact on how they think, feel and act
- Use logical (natural) consequences rather than just simply punishments or sanctions
- Provide routines, set limits and have clear boundaries
- Regulate our own emotions
- Co-regulate with young people and help them to develop self-regulation strategies for the future
- Plan the teaching and learning for all children and young people
- Communicate regularly with parents/carers about their child's needs
- Provide specific support for children and young people experiencing any difficulties, whether this is an ongoing need or a short term difficult a child or young person may be having
- Oversee the specific needs of all children and young people in the provision.
- Use Vital Relational Functions (VRFs) to provide a relational basis for a child's emotional, social and neurological development. For more details see Thrive approach.

Head of Provision

- Leads on all aspects of this policy and model the expectations for all staff
- Ensures that all staff receive regular purposeful training to support relationships and minimise risk
- Ensures that all staff are provided with clear instructions for reporting incidents of harm and that all such reports are thoroughly investigated and responded to
- Ensures that risk assessments are carried out when required and that appropriate measures are implemented
- Are the only people authorised to suspend or exclude a child or young person from the provision
- Include parents/carers in personalised planning for their child
- Provide support to staff, children/young people and parents/carers as necessary
- Link with outside agencies to access additional services
- Ensure that all tracking and reporting of incidents and additional needs are up to date.

Family

- Inform the provision of any concerns about changes in their child/young person's behaviour, emotional wellbeing or mental health
- Have open conversations with the provision
- Engage with support offered by the provision and other agencies to further support their child/young person's needs

Governors

- Ensure that appropriate policies are in place, that they are regularly reviewed, and their effectiveness monitored
- Undertake their statutory role around suspension and exclusion
- Ensure that all staff receive purposeful training in order that they can undertake their role.

This Behaviour and Relationship policy was written by the Education SEMH Team, Essex County Council. The Policy has been reviewed and amended by staff at The Atrium to be approved by Trustees at HEARTS academy trust.

The following appendices contain ways to help us to understand the behaviour

Record of a Restrictive Physical Intervention (RPI)

Child name:	DoB:	Year group:
--------------------	-------------	--------------------

Reporting member of staff	
Date of incident:	
Start time of incident: End time of incident:	
Location of incident:	
Name(s) of additional staff witness:	Name(s) of additional child witness:

Stressors leading up to the hyperarousal and distress:

--

Co-regulation prior to the decision to use the RPI

Verbal advice and support		Swapping of staff	
Calm talking and Reassurance		Distraction/diversion	
Personalised de-escalation script		Offering choices and options	
Humour		Offering safe space	
Other (specify)			

Why the RPI was deemed absolutely necessary	To prevent harm to self	
	To prevent harm to another child (children)	
	To prevent harm to adults	
	To prevent damage to property	
	To prevent harm from absconding (in accordance with policy)	

Predicted harm prevented by the RPI
(e.g. bruising to peers, lacerations, destruction of computer, climbing over high fence, climbing on roof, bruising to self, head injury)

In your view was the RPI proportionate? Explain this briefly

Unresolved harm/ details of damage to property (costs and details of harm to people including medical intervention or damage to property)

Was a medical record completed – yes/no

Specific details of the RPI including sequence of techniques, time and staff involved:

Time	Technique	Staff name
Duration of RPI:		Duration of the incident:

Was there any physical mark or harm caused by the use of RPI to the child?	yes/ no	Details
What action has been taken?	Actions – Discussed with school staff and parent	
Has the incident been reported to the Children Safeguarding Team (Local Authority Designated Officer)?	yes/ no	Details
Incident reporting and monitoring		
	Name	Time and date
Incident reported to Senior staff by:		
Parents / Carer verbally informed by:		
Parents / Carer letter sent:		
Child wellbeing check by:		
Staff wellbeing verified by:		

Verification of account of incident:

STAR Analysis

What happened at the time?	What staff could do differently in the future.
Setting (Time, environment, relationships, etc.)	
Trigger (stressors)	
Action (What happened?)	
Response (What the adults did?)	

Consider the needs of a specific child/young person before exploring the school environment with them in mind.

The questions are designed to be prompts to inform One Planning.

The individual checklists complement each other, but separate different school environments in order to consider a child's presentation in different contexts thus drawing attention to differences and similarities. Some questions are therefore repeated.

Safety	Y/N n/a	What needs to be done
If deemed appropriate, has a risk assessment been completed to assess and manage risks involved in the provision for the child/young person?		
Have actions been taken to address identified risks?		
Have staff received appropriate training as part of addressing identified risks?		
Have parents/carers been involved in the assessment and planning to support the safety of their child/young person in school?		
Have parents/carers been informed of any incidents where safety of their child/young person has been of concern?		
Is the child/young person feeling secure in their relationships with adults and peers? (see Social Interaction section)		

Environmental checklist for children/young people with additional SEMH needs

Consider the needs of a specific child/young person before exploring the school environment with them in mind.

The questions are designed to be prompts to inform One Planning

The individual checklists complement each other, but separate different school environments in order to consider a child's presentation in different contexts thus drawing attention to differences and similarities. Some questions are therefore repeated

The SEND Environment	Y/N n/a	What needs to be done
Has a One Page Profile been completed for this child/young person?		
Are procedures in place to share the One Page Profile with familiar adults and those unfamiliar with the child/young person eg. supply teachers?		
Is One Planning in place for this child/young person?		
Is there a current Adult Response Plan in place for the child/young person?		
Are major/repetitive incidents or communicating behaviours which cause concern analysed so changes can be planned for? (using ABC/STAR analysis tools)		
Has the school/setting communicated appropriately and effectively with the child/young person's parents/carers?		
Does the child/young person separate appropriately from parents/carers at the start of the day and return happily to them at the end of the day?		
Are parents/carers requesting parenting support at home and have they been appropriately signposted?		
Are there any outside agencies already involved in the support for the child/young person?		
If outside agencies are involved, have their recommendations been followed effectively?		
Have interventions provided by outside agencies been delivered?		

The Learning Environment	Y/N n/a	What needs to be done
Have the child/young person's views about their learning been sought?		
Is the child/young person able to access support quickly in the classroom when necessary?		
Is a Learning Support Assistant directed to support the child/young person?		
Does the Learning Support Assistant have a good understanding of the child/young person's needs?		
In line with best practice, does the Learning Support Assistant offer hover support?		
Are there procedures in place to regulate and monitor the use of personalised provision if necessary?		
Is there safe place that the child/young person can access within the classroom when necessary?		
Is the child/young person seated in a place that supports their needs eg. away from distractions or close to the exit?		
Is the child/young person able to attend to and engage with whole class learning?		
Is the child/young person seated with good role models and away from others who may prove distracting?		
Is the child/young person able to work effectively with peers in a group?		
Is the child/young person able to focus and complete independent work for an appropriate period of time?		
Are adults using positive language around and to the child/young person?		
Are adults using the language of Growth Mindset to support the child/young person?		

Are the child/young person's feelings and emotions acknowledged?		
Do staff react consistently to communicating behaviours?		
Are rewards and consequences given fairly and consistently?		
Is the child/young person given access to sensory, movement or brain breaks when necessary?		
Have the child/young person's sensory needs been explored? If so, has provision been made for them?		
Does the child/young person have good relationships with the adults in the classroom?		
Does the child/young person enjoy being given responsibility?		
Are there times when the child/young person can focus on work for longer periods of time?		
Are there specific subjects that the child/young person finds more difficult to engage with, such as Literacy or PE?		
Is the child/young person able to work outside of the classroom when appropriate?		
Is the child/young person supervised adequately when out of the classroom?		
Do all staff know how to react to the child/young person and his/her communicating behaviour when encountering them in the school?		
Is the child/young person able to follow normal school rules and routines without additional supervision e.g. using the toilets appropriately, sitting with peers in assembly?		
Is the child/young person able to line up with their peers?		
Does the child/young person have any other significant relationships with staff or children around the school?		

Social interaction (less structured environments)	Y/N n/a	What needs to be done
Have the child/young person's views about friendships and relationships with adults and peers been sought?		
Does the child/young person have friends they can play with?		
Is the child/young person able to interact appropriately with other children beyond their friendship group?		
Is the child/young person able to play safely and independently?		
Are there systems in place that allow the child/young person to access play opportunities eg. play leaders, equipment?		
Are there alternative, more structured environments available within the school available to support the child/young person eg. lunch clubs?		
Does the child/young person know how to access adult support in less structured environments?		
Do the adults supervising have a clear understanding of the child/young person's needs?		
Do staff react consistently to communicating behaviours?		
Are rewards and consequences given fairly and consistently?		

<p>Window of Tolerance</p> <p>What the child/young person is like when regulated, calm and engaged?</p>	<p>How best to support and maintain this and support regulation</p>
<p>Dysregulation</p> <p>What are the first signs that things are becoming too stressful?</p>	<p>Strategies to support and to co-regulate</p>
<p>Hyperarousal</p> <p>What are the communicating behaviours?</p>	<p>Interventions necessary to support and co-regulate</p>
<p>Hypoarousal</p> <p>What are the communicating behaviours?</p>	<p>Interventions necessary to support and co-regulate</p>

Risk Assessment

Key Questions for the Risk Assessment

1. Assess the risk and reducing the potential for harm

Adopting precautionary and preventative steps which help to avoid, prevent, minimise or mitigate incidents where staff can be harmed. Maintaining a sense of proportion in relation to the assessed risk. Best practice will be to involve parents/carers and the child or young person in this risk assessment process.

Possible questions to inform the risk assessment

- What harm could occur and how severe could this be? How likely is this harm?
- What information is provided for staff, how is it communicated?
- Is the right level of training provided to relevant staff?
- Are there changes needed to the way people carry out their duties or where they work?
- Has there been sufficient accounting of the site layout and the knowledge of the immediate working environment?
- Incident recording and response to incidents.
- How is any information, reports, involvement with other agencies such as the police and Children's Social Care shared?

The assessment will include:

- Identified vulnerable child/young person (those that are most likely to become dysregulated when, where including activities and areas).
- Existing preventative measures and evaluation of the other potential risks.
- Additional preventative and control measures identified, including timescales.
- Communication procedures and review arrangements.

2. Write an action plan

Any actions should be written monitored by Head Teacher/Senior Management and Governors to ensure that all items identified have sufficient resources allocated and have been addressed. The plan should be fit for purpose and tailored to managing the specific risk presented by identified child/young person or groups of children and young people. The plan should include the following:

- Action required,
- Action by whom
- Risk priority
- Projected timescales
- Date completed

3. Monitor, Review and update the assessment

Any risk assessment should be regularly reviewed and updated. It also should be visited again following a significant incident to reflect on any learning or additional protective measures.
